

ComplianceVigil : A platform to assist enterprises to be able to keep up with ever increasing regulatory requirements. Feature rich solution for risk and compliance assessment and management.

Organizations, today have to demonstrate adherence to a series of standards or controls, while proving that the controls actually exist. However, this is an uphill climb as they face dual challenges -first being, determining the exact regulations that are required to be adhered to; second being, gathering evidence in order to prove the compliance to those identified regulations. Non-compliance can effect a business's reputation, as well shake customer confidence, since this directly translates to a questionable integrity of the organization.

ComplianceVigil

Happiest Minds' ComplianceVigil solution provides a platform to capture all matters of compliance and related data on a single system; in order to assist enterprises to be able to keep up with ever increasing regulatory requirements. Our solution also offers various risk assessment and management features that can be implemented with minimal time and effort.
