

Significant Risk & Compliance Improvement with Privileged User Management Solution for a Large Banking Group

BUSINESS REQUIREMENT

Centralized tracking and administration for giving Super User Access to the privileged Users across applications and platforms

Standardized Process to keep complete and accurate audit data on that access

Avoid threats from insider attacks

OUR SOLUTIONS

Implemented and rolled out NetIQ Privileged User Manager Solution

Implemented Privileged User Manager creates a secure Remote Desktop Proxy (RDP) tunnel to the target Windows host, without exposing the administrative password to the user

Implemented Privileged User Manager allowing administrators to execute privileged commands on a UNIX host from a Windows desktop

BUSINESS IMPACT

Centrally defined rules for allowing or denying user activity based on a combination of user name, typed command, host name and time (who, what, where and when)

Privileged user activity recorded in a powerful audit reporting and management tool, allowing for immediate action when suspicious activity occurs

Improved Risk and Compliance posture with centralized Auditing and Reporting mechanism
