# Transforming Industries with an AI-First Approach

Enterprises today expect AI to deliver real, scalable business value. Happiest Minds combines AI-first engineering, modern platforms, and deep industry expertise to turn that intent into measurable impact.

## Platform Highlights

Our platforms are designed to solve specific business problems. They bring together AI, automation, analytics, and engineering so teams can move quicker, reduce manual effort, and make better decisions at scale.

### 1 Arttha

A digital banking SaaS platform designed for microfinance, neobanking, and traditional banking. Covers onboarding, core banking, lending, and more, all in one place.

### 2 EduWeave AI

An AI-powered suite of solutions that simplifies administration, enhances learning, and supports institutional growth.

### 3 FuzionX Gaming Studio™

A B2B gaming platform offering end-to-end game development, testing, certification, and delivery for global gaming operators and suppliers.

### 4 Insurance in a Box

A low-code insurance platform that integrates with existing systems for AI-driven underwriting, claims, and customer engagement, powered by InsuranceGPT.

### 5 Rel(AI)Build

A multi-agent AI platform for automating and governing end-to-end software development.

### 6 SecAIGenie

AI-driven security platform that unifies and automates cybersecurity operations for smarter, faster threat response.
