

## SDN Capabilities Automated and Delivered

### BUSINESS REQUIREMENTS

Design and develop the automation framework consisting of more than 10K end-to-end Network test scenarios with no proper documentation of test cases.

Regression test suite for new device versions along with new feature testing.

Test sufficiency analysis and 100% test coverage.

### OUR SOLUTIONS

Tight coupling of the test scripts with device Configurations, data and the hard coded values for waits and time outs in test scripts.

Challenges w.r.t test sufficiency assessment and planning of quality improvement by test Sufficiency analysis and feature prioritizations had to be considered.

100% script less automation of API test cases was incorporated.

### TOOLS /TECHNOLOGIES

Java  
Happiest Minds  
Pro-Test automation  
framework

MySQLTomcat

OrCAD Capture, Allegro

### BUSINESS IMPACT

Test approach of timer optimization and infrastructure set up standardization has improved the overall test regression time by 34%.

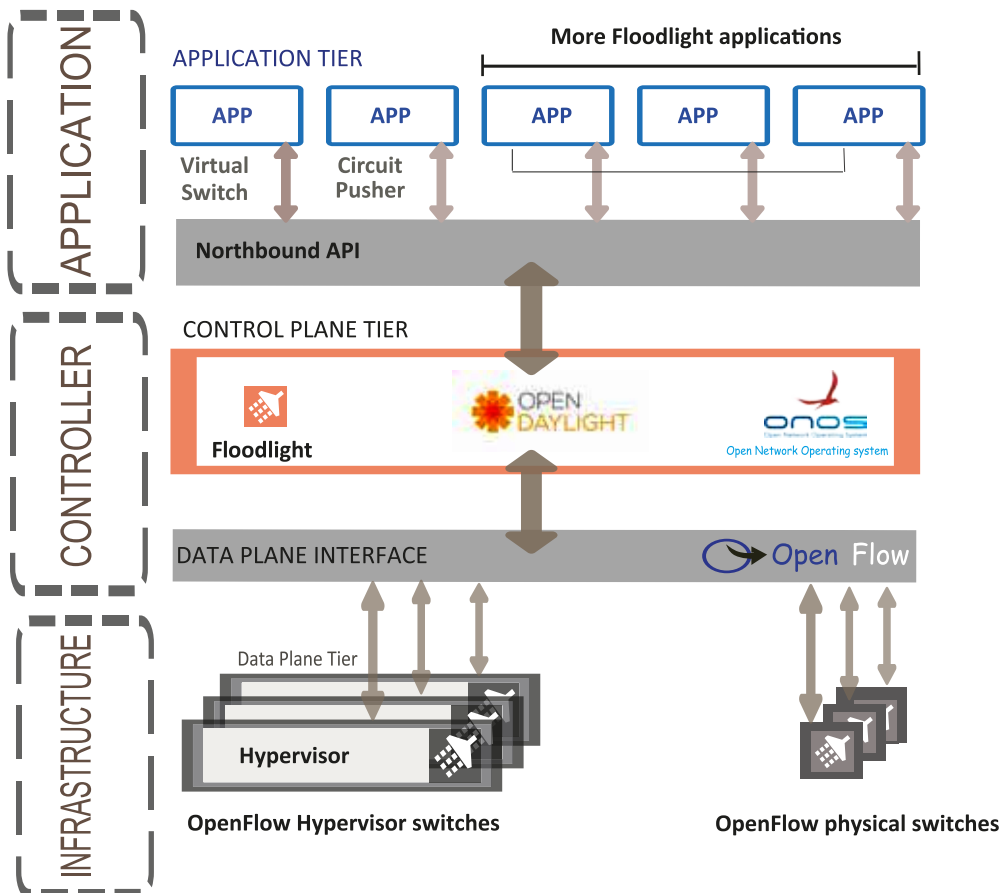

Improved new feature testing time by 14% in 6 months as test scripting became standardized

Happiest Minds team handled three major version releases with zero P1 defects leaked. Also, we equipped customer QA Team with detailed metrics on the ROI from automation, test sufficiency analysis reports and plan quality improvement cycles for new features.

## SOLUTION OVERVIEW

### About Us

Happiest Minds enables Digital Transformation for enterprises and technology providers by delivering seamless customer experience, business efficiency and actionable insights through an integrated set of disruptive technologies: big data analytics, internet of things, mobility, cloud, security, unified communications, etc. Happiest Minds offers domain centric solutions, IPs in IT Services, Product Engineering, Infrastructure Management and Security. These services have applicability across industry sectors such as retail, CPG, e-commerce, banking, insurance, hi-tech, engineering R&D, manufacturing, automotive and travel/transportation/hospitality. As a Mindful IT Company, the focus is on 'Being Mindful' and 'Doing Mindful' which involves perceiving immersively, processing non-judgmentally and performing empathetically. 60 minutes in a week is committed towards inculcating a mindful approach within the organization, using a select set of tools and techniques. Headquartered in Bangalore, India, Happiest Minds has operations in the US, UK, The Netherlands, Australia, Middle East and Turkey.
