

Enterprise Data Warehouse Transformation & Multi Country Rollout for a leading Corporate Services Company

BUSINESS REQUIREMENT

To transform and re-engineer the existing DW and drive ROI

Need to integrate multiple instances of the OLTP System from over 23 countries containing information on Customers, Timesheets & Billings, etc. Due to lack of comprehensive information across the group

Further Integration with CRM and HR systems and other acquired

OUR SOLUTION

Remodeled the EDW Data Model with emphasis on Business Process Areas instead of Source System based subject areas. The business team could easily relate to the Business Process Subject Areas

The DW built initially was leveraged to ensure the DW transformation was optimal

BUSINESS IMPACT

Enhanced the Usability of the DW with optimal transformations in design and minimal rework

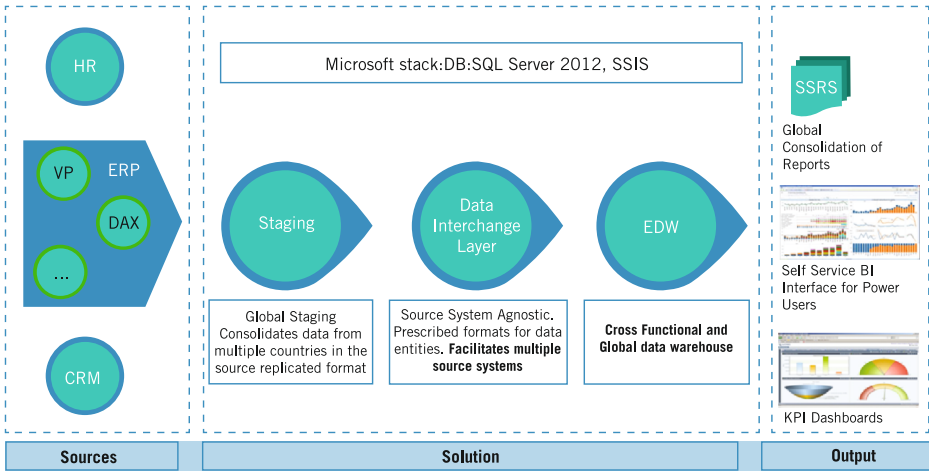

Rollout to over 23 and growing number of countries

Reports that was initially created quarterly were now produced daily
