# ARCHER SERVICES COMPETENCY

Happiest Minds build, change and run [Managed Governance, Risk & Compliance \(Managed GRC\)](#) on RSA Archer platform. Headquartered in Bangalore, India, Happiest Minds has operations in the US, UK, The Netherlands, Australia, Middle East and Turkey. Our team of certified and practicing RSA Archer experts offers a full lifecycle of consulting and services.

# OUR STRUCTURED APPROACH ALLOWS CLIENTS TO CUSTOMIZE SOLUTIONS TO THEIR **UNIQUE REQUIREMENTS!**

Quickly leverage your investment in RSA Archer by minimizing business bottlenecks. We take a top-down approach to understand the pain points of our customers and tailor the Archer implementation unlike few other RSA Archer implementers who focus on vanilla implementations.

Our Archer-specific accelerators, approach and methodology enables customers to fast-track the design and implementation process, reducing the overall implementation time.

We have a large team of RSA Archer certified consultants with implementation experience at both large, complex organizations and smaller companies with limited budgets. This team brings a powerful combination of GRC domain and technology experience which equips us in managing and meeting stakeholder expectations.

## USE CASE CAPABILITIES

Happiest Minds has implementation and support experience in use cases covering almost all of the 7 core solutions

**1** Establish GRC platform to manage all Third Party relationships and engagements while reducing risks and monitoring performance

**2** Protect organization's day-to-day operations during unexpected events by performing Business Impact Analysis and planning for Business Continuity and IT Disaster Recovery

**3** Improve the complete audit lifecycle and transforming the efficiency of audit department through use cases Audit Engagements and Work papers, Audit Planning and Quality.

**4** Reduce the risk of security threats and provide management a view of their [cyber security](#) posture through implementation of use cases in IT Security Risk Management and Regulatory [Compliance Management](#) solutions

**5** Provide support for first line of defense self-assessments and top down and bottom up risk assessments through use cases in Enterprise & Operational Risk Management solutions

**6** SOX Compliance Audit using On Demand Application

**7** Archer Integration with SIEM, Vulnerability Management and other third party applications

**8** Upgrade Archer from 5.x to 6.x

**Happiest Minds has successfully carried out many global engagements with customers across multiple domains such as Energy, Education, Financial Services, Healthcare, Consulting and Audit Firms**
