%	14.1%	16.1%		26.8%	

* Loss on Fair Valuation of Warrant Liability

Joseph Anantharaju, Executive Vice Chairman, Happiest Minds Technologies said, "With our positioning in the market as a go to digital partner and the demand environment remaining buoyant, we have been able to record a good performance in this quarter. Our net headcount addition was strong as we onboarded 310 Happiest Minds, which reflects our ability to attract and retain good talent with our compelling people engagement programs".

Venkatraman N, MD & CFO, Happiest Minds Technologies talking on the financials said, "We have begun the fiscal on a solid footing with good growth and performance. Our operations and delivery remain resilient in the face of supply side pressures and the pandemic situation. Our financials this quarter has an exceptional expense on account of fair valuation of warrant liability in our balance sheet. The original liability represented the probable future payout obligation basis growth and profitability of PGS Inc. Fair valuation of the original liability basis performance of the acquired asset, and changes, either debit or credit, must be routed through the P&L. Basis increasing probability of payout on account of performance, we have fair revalued the liability leading to an exceptional expense of ₹ 6.1 Crores.

Our improving profitability means higher effective income-tax. Compared to the same quarter previous year wherein we had a significant tax credit by accounting for 'deferred tax asset', this quarter we have a full charge or expenses in line with our profits.

Separately, I am happy to state that we have been able to settle an earlier reported employee discrimination suit in the US leading to a credit to our P&L of ₹ 2 Crores".

Financial highlights for the Quarter ended June 30, 2021

- Operating Revenues in US\$ terms stood at \$33.2 million (growth of 9.6% q-o-q ; 41.4% y-o-y)
- Total Income of ₹ 25,387 lakhs (growth of 13.5% q-o-q ; 35.8% y-o-y)

Safe harbor

This release may contain certain forward-looking statements, which involves risks and uncertainties that could cause our future results to differ materially from those in such forward-looking statements. The COVID-19 pandemic could decrease our customers' technology spend, delaying prospective customers' purchasing decisions, and impact our ability to provide services; all of which could adversely affect our future revenue, margin, and overall financial performance. Our operations could also be negatively impacted by a range of external factors not within our control including those due to the pandemic. We do not undertake to update any of our forward-looking statements that may be made from time to time by us or on our behalf.
