

HAPPIEST MINDS SUCCESSFULLY MIGRATES VMWARE TO AWS CLOUD FOR CAN CAPITAL

CAN Capital is a financial services firm that provides access to working capital to small and medium-sized businesses in the United States. CAN Capital is one of the first finance companies in the U.S. solely focused on small business finance. It is one of the largest online alternative financing providers for small businesses. They have helped over 81,000 small businesses gain access to over 7 billion in working capital since 1998.

In Partnering with Happiest Minds Technologies, the client was able to identify the complexity of their data center and was able to migrate successfully to AWS with zero disruption, incorporated Redshift Cluster for Data Sampling, and updated existing relay servers with SES deployment for SMTP communications.

Our project consisted of migrating an on-prem datacenter containing a legacy application with complex dependencies to AWS. The project was an overwhelming success. Happiest Minds quickly jumped in and learned our environment's complexities and provided guidance and support throughout the whole process. The level of expertise their team brings to the table is a masterclass.

We discovered new dependencies during the go-live cutover that were missed by our team during the project (Redshift cluster availability, STMP mail configurations for an existing relay server, amongst others). The Happiest Minds team adapted and resolved these new dependencies while executing the rest of the cutover activities. We successfully migrated our whole data center without any issues reported by our end users after we went live.

Overall, the team from Happiest Minds which supported us on this project was one of the best we've ever assisted with a major initiative at our company. We will be continuing the partnership on all major IT initiatives for our company in the future.

Andy Troiano
VP, Technology
CAN Capital

ABOUT HAPPIEST MINDS

Happiest Minds Technologies Limited (NSE: HAPSTMNDS), a Mindful IT Company, enables digital transformation for enterprises and technology providers by delivering seamless customer experiences, business efficiency and actionable insights. We do this by leveraging a spectrum of disruptive technologies such as: artificial intelligence, blockchain, cloud, digital process automation, internet of things, robotics/drones, security, virtual/augmented reality, etc. Positioned as 'Born Digital . Born Agile', our capabilities span digital solutions, infrastructure, product engineering and security. We deliver these services across industry sectors such as automotive, BFSI, consumer packaged goods, e-commerce, edutech, engineering R&D, hi-tech, manufacturing, retail and travel/transportation/hospitality.

A Great Place to Work-Certified™ company, Happiest Minds is headquartered in Bangalore, India with operations in the U.S., UK, Canada, Australia and Middle East.
