

HAPPIEST MINDS SUCCESSFULLY DESIGNED AND DEVELOPED A GENAI-BASED RESEARCH ASSISTANT

SKAN is a renowned not-for-profit medical research trust committed to pioneering advancements in the fields of Ageing and Neurological sciences. Collaborating with globally reputed institutions, SKAN's research spans critical areas such as gut microbiome, stem cells, human genetics, molecular biology, and bioinformatics. Driven by the mission to enhance scientific knowledge, SKAN embarked on a transformative journey to streamline and elevate its research capabilities.

By partnering with Happiest Minds, SKAN has addressed its unique challenges with an AI-driven solution that automates tasks like summarizing research papers, allowing researchers to focus on innovation. With project management tools, an interactive chat interface, real-time notifications, and feedback modules, the platform enhances collaboration while ensuring data security through advanced authentication protocols. This implementation has brought transformative benefits, optimized efficiency and streamlining workflows.
