

## DNS Migration for a Large Financial Company in Europe

### BUSINESS REQUIREMENT

Standardization of the DNS infrastructure on Microsoft AD integrated DNS platforms

Continuous status/functional checks for no loss of functionalities and productivity applications with minimal impact to business and users

Well documented and controlled change processes

### OUR SOLUTIONS

Planned migration of zones and sub-zones

Configuration of Novell eDirectory and DNS infrastructure to forward the queries to the central infrastructure

Configuration of DHCP servers managing the DNS records of clients

### BUSINESS IMPACT

Single platform and centralized management of all DNS records

Single pane view of all the zones and sub-zones

Replication setup between all the Microsoft Active Directory domain controllers for high availability and backup

LINT (dirt collection) collection process to have a sanitized and clean environment, ensuring that all the unused records were purged out of the system
