

DATABASE & MIDDLEWARE SERVICES

Market Challenges

Any DB & MW services implementation comes along with its own set of unique challenges and constraints. Happiest Minds understands these challenges and provides the expert advice on the right solutions that are best suited to the business needs to achieve the desired business objectives in the most cost optimized and timely manner:

- ▶ Which Database or the Middleware solution to be considered.
- ▶ How the Database or Middleware solution should be designed.
- ▶ Where to implement the database and middleware solutions (Public Cloud/ Private Cloud/ Hybrid Cloud/ On-Premises).
- ▶ How to do migration between platforms
- ▶ Address security and compliance concerns
- ▶ Operate & optimize heterogenous platforms
