

Red Teaming Case study

A major real estate developer in the Middle East

About

The client is a leading real estate developer in the middle east.

Solution

Happiest Minds conducted a goal-based activity that required a holistic view of the organization from the perspective of a hacker

Carried out various social engineering activities, physical security by-passes to gain unauthorized **access**.

Gain access to sensitive data including PII(Personally identifiable information), PAN (Primary account numbers) and corporate intellectual property

Problem

To identify weakness in its:

- ▶ Physical security
- ▶ Communications security
- ▶ Information security
- ▶ Internet security

Have an overall measure of the security posture of the organization

Presenting a holistic standpoint of the organization's **security** measure

Timely execution of activities in a covert manner

Detailed technical report
