03

Service Offered

- A Robust service transition framework with minimal disruption to business
- Automation of user identity life cycle through the enterprise spanning different geographical locations
- Well defined security policies & use cases

04

Digital Security Delivered

- With existing non-centralized provisioning, security risks, tedious manual tasks, heavy helpdesk involvement were a major concern which was effectively addressed through our solution deployment
- AD object clean-up; proper RBAC analysis and deployment; and process optimization lead to a more streamlined a well-controlled enterprise-level **identity management** system
- Drastically reduced Total Cost of Operations (TCO)
- Effective implementation of the MIM 2016 across legacy on-premises applications as well as next-gen SaaS applications
