

Happiest Minds OT Security Services

Powering your industry 4.0 journey with Next-Gen Threat Management

The OT security risk has become a major concern for C-suite executives. With the advent of Industry 4.0 and the convergence of IT, IoT & OT environments have further increased complexity and vulnerability in the cyber space. Gaining visibility of your distributed IT environment is crucial to mitigate cyber threats in this highly converged OT/IT industry.

Common Cyber Security Threats to OT/IoT/MIoT

Happiest Minds OT/IOT Services

Risk & Compliance Assessment

- OT/IoT/SCADA/HMI Devices risk assessment & recommendation based on ISA99/IEC 62443, NIST SP-800-82.
- OT Security Architecture review & recommendations
- Firewall policy/access review
- Baseline security review of devices in OT environment
- OT security testing (OT/IoT/Infra)

OT/IOT Threat Management

- Detection of current threats to the OT/IoT network and IACS devices
- Integrated asset discovery and vulnerability identification
- Risk-based containment and remediation
- 24*7 SLA based security monitoring and response

OT/IOT/IT Integrated SOC

- OT/IT integrated security monitoring
- Integrated visibility dashboard
- Cyber/Risk Analytics (UBA, NDA, EDR)
- Security Incident Response Automation
- SOC operations & Incident management –24*7, 8*5, dedicated/hybrid/shared

Why Happiest Minds ?

11+ Years of MSSP - Vast experience in cybersecurity providing niche services to 100+ customers

Cybersecurity DNA – End-to-end coverage of cybersecurity services and support - Brings in a global threat view for responding to threats in your environment

Born Digital Born Agile - Digital first focus – Think tank pool influencing the industry

Cost efficiency - Higher cost savings through Shared services and automation

IoT CoE - Wide range of experience in enabling factory digital experience with 60+ case studies

Automation First - Focus on response automation providing customers with faster MTTR and MTTR

Our Success Stories

EDR and OT data security Services for Leading Global Pharma in US

- » Centralized event logs and custom scans
- » Complete endpoint visibility across organization
- » Enablement of both detection and prevention of advanced threats
- » Reduced downtime and the cost of resilience

OT Threat Management Services for a Leading Gas Distributor in UK

- Reduced false positive with proactive monitoring and threat hunting <<
- Reduced MTTD and MTTR <<
- Secure transfer of logs and alerts to SOC team for monitoring and remediation <<
- OT Asset identification and categorically mapping for better asset tracking <<
